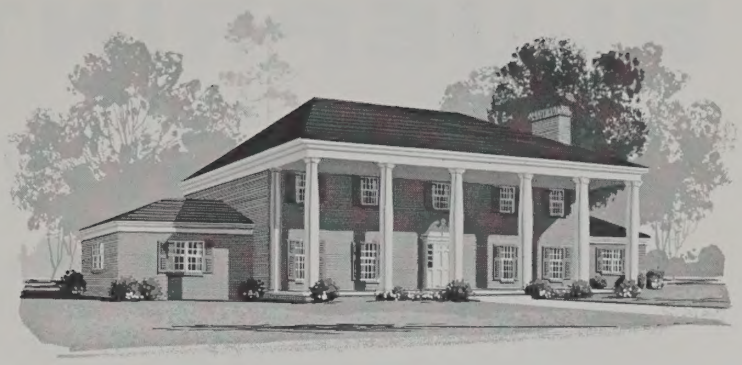
HOMES FOR BETTER LIVING

72 House Plans of
Ranch, Cape Cod, Split Level, Colonial,
Contemporary & Vacation Styles

$2

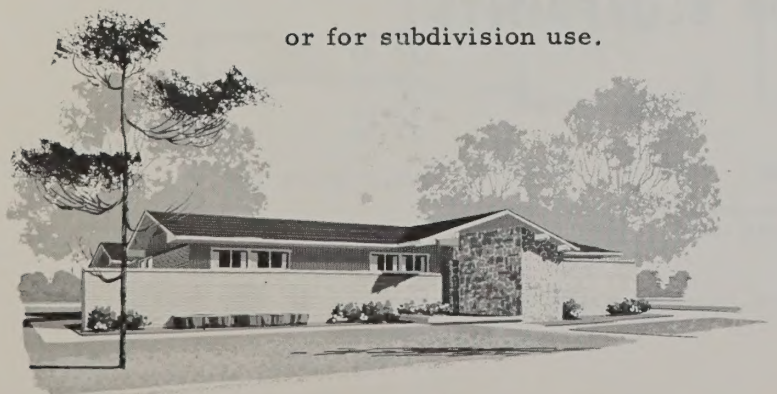


Foreword

Selecting a plan for your new home is one of the most important decisions you will make. A home is to be built for a lifetime, and should be planned with care.

Whatever type of home you require, whatever style or size, we feel that this book contains the large selection of designs to meet these requirements. We have endeavored to present many sizes and styles and varied floor plans to assist you.

The larger designs have luxurious exteriors and practical well-designed interiors, planned for a maximum of comfort and spaciousness. In many cases, we have prepared two or more elevations, so that a wide selection is available. These may be used to good advantage by builders for individual or for subdivision use.



BLUEPRINTS

How to order...

Before estimating costs, and before construction of your home is begun A COMPLETE SET OF BLUEPRINTS IS NECESSARY. Skillfully prepared sets of blueprints for every home plan shown in this book are available to you on immediate order. They have been developed by outstanding designers. Every detail — every elevation essential to the builder has been carefully rendered. Each set of blueprints consists of four to eight sheets.

A Budget Homes Section

Presented in this portion of our book are homes we believe will be of special interest to builders and individuals who need a smaller home plan -- a plan suitable for second homes, vacation homes, lakeside cottages, or retirement homes.

These plans are particularly adaptable for use in the Housing & Urban Development programs. We have included a wide variety of styles and sizes, with unusually good floor plans for the size.

Each plan is available with alternate front elevations for subdivision use of a style that would cover a wide variety of individual tastes.
